Hello everyone,

as home-school-work for the upcoming week I am sending:

I) a link to a questionnaire revising U5A, 5F and U5H assigned two weeks ago.

You will find the questionnaire here:

https://www.survio.com/survey/d/L1J3M5B8U3V7S1N9C

II) a link to a BBC article on the basic terminology of the current situation - the disease caused by coronavirus. I would like you to read the article and make your own glossary of terms and expressions that you think is associated with the basic knowledge of the problem. Please, send me an email saying how you feel about the situation (60 - 70 words).
