Hello everyone,

as home-school-work I am sending:

I) a link to a questionnaire revising U10A and U10B assigned two weeks ago.

You will find the questionnaire here:

https://www.survio.com/survey/d/V8N3U9X6U6F6X9K2D

II) a link to a LearnEnglish - British Council article on the basic terminology of the current situation - the disease caused by coronavirus. I would like you to read the article and make your own glossary of terms and expressions that you think is associated with the basic knowledge of the problem. Please, send me an email saying how you feel about the situation (60 - 70 words).
